

HRITIK CHEMICALS PRIVATE LIMITED  
MUMBAI, INDIA

INDUSTRIAL SOLVENTS & ORGANIC CHEMICALS

# A Deep Trading Portfolio. Built for Availability.

Imported, stocked and delivered across India.

---

EST. 1998 | 22 CATEGORIES | 375 LINE ITEMS | PAN INDIA

## COMPANY STORY

# Twenty-eight years inside India's chemical trade.

Hritik Chemicals was founded in Mumbai in 1998 as an importer, stockist and distributor. Trading is where the business began, and it is still the side of it that most Indian manufacturers know us for.

This portfolio is that trading range: solvents, amines, acids, inorganics, surfactants, excipients and more, bought from established domestic manufacturers and global suppliers, then held in stock or called forward against demand.

The value we add is breadth and honesty. A mixed requirement can be consolidated on one order, the manufacturer's Certificate of Analysis travels with every consignment, and we tell you the real lead time before you commit.

*We tell you the real lead time,  
not the one you want to hear.*

## 1998

### Founded in Mumbai

Established as a chemical importer, stockist and distributor.

## Sourcing

### Domestic and global network

Relationships with established Indian manufacturers and international suppliers.

## Warehousing

### Bhiwandi and Hyderabad

Fast-moving lines held at two warehouses, slower lines called off against confirmed orders.

## Today

### Trading portfolio

375 line items across 22 categories, delivered across India.

## OPERATING MODEL

# Imported, stocked and delivered across India.

Hritik Chemicals is an importer, stockist and pan-India distributor. This portfolio is a trading range: material is bought from established domestic manufacturers and global suppliers, held or called forward against demand, and delivered in tanker and drum quantities to industrial hubs across the country.

## THE SUPPLY CYCLE

HCPL MANAGES EVERY STEP

## THE MODEL IN PRACTICE

## SOURCING NETWORK

Domestic manufacturers and international suppliers, built up over more than 25 years of continuous trading in these products.

## STOCK AND CALL-OFF

Fast-moving lines are held in stock at our warehouses in Bhiwandi, Maharashtra and Hyderabad, Telangana. Slower or specialised lines are called forward against a confirmed order, with the lead time stated on the offer.

## INCOMING QUALITY CONTROL

Material is checked against the manufacturer's Certificate of Analysis before it enters stock. The COA travels with the consignment.

## TANKER AND DRUM SUPPLY

Bulk road tanker for high-volume solvents, and original packed drums, carboys, bags or IBCs for everything else.

## PAN-INDIA DELIVERY

Delivery to every major industrial hub, with transport arranged to suit the product and its hazard classification.

**Scope.** This portfolio is offered for domestic supply within India. Products are sourced from third-party manufacturers and are not manufactured by Hritik Chemicals. Brand, origin and manufacturer are confirmed at the time of offer.

## CAPABILITY

# Why Hritik Chemicals

Six things a buyer can hold us to. Each is a statement of how we operate, not a claim about scale.

01

**Since 1998**

More than twenty-five years of continuous trading in solvents, organic chemicals and intermediates.

02

**Breadth of range**

375 line items across 22 categories, so a mixed requirement can be consolidated on one order.

03

**Availability**

Stock on fast-moving lines and a sourcing network behind everything else. We tell you the real lead time.

04

**Documentation**

Manufacturer's Certificate of Analysis and Safety Data Sheet issued with the consignment.

05

**Tanker and drum**

Bulk and packed supply, with transport matched to the product and its hazard classification.

06

**Single-point accountability**

One commercial and technical point of contact from enquiry through delivery.

## CERTIFIED MANAGEMENT SYSTEMS

**Quality management**

Covers supplier selection, incoming quality control and release of material against Certificate of Analysis, and how a non-conformance is handled.

**Environmental management**

Applies to storage, hazardous goods handling, packing and transport of the material we hold and move.

**Certification scope.** Certificate numbers, issuing body and scope of registration are provided on request. Where a certification is held by the manufacturer rather than by Hritik Chemicals, that is stated at enquiry.

## INDUSTRIES SERVED

# Who buys from this range.

Nine buying industries across twenty-two categories. Each card names the categories and a few of the lines most often ordered; the full listing follows.

|                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                       |

## CATEGORY KEY

**01-04** Solvents, amines, esters, aldehydes

**17-18** Inorganic salts, pigments, fillers

**05-08** Acids, specialty organics, reactive agents

**19-20** Surfactants, personal care

**09-12** Inorganics, excipients, glycols, monomers

**21-22** Pharmaceutical actives, vitamins

**13-16** Phenols, amines, fatty acids, phosphorus

## PORTFOLIO AT A GLANCE

# Find your products in thirty seconds.

Start from what you make, not from the chemistry. Find your business in the second column, then turn to those categories in the listing that follows.

| CATEGORIES                                                 | WHO BUYS                                                            | WHAT THEY USE IT FOR                           | LEAD LINES                                                    |

## NOT SURE WHICH FITS?

Tell us what you make and the problem you are solving. We will point you to the right products, or tell you plainly if the answer is outside our range. [hritikp@hritikchemical.com](mailto:hritikp@hritikchemical.com)

## PAN-INDIA DISTRIBUTION

# Two warehouses. Delivered across India.

This portfolio is supplied within India only. Fast-moving lines are held at our warehouses in Bhiwandi, Maharashtra and Hyderabad, Telangana; slower lines are called forward against order. Material is delivered by road tanker or in original packs to industrial hubs across the country.

### DISTRIBUTION HUB · WEST

## Mumbai, Maharashtra

**Warehouse: Bhiwandi, Maharashtra**

Stock point for western, northern and central India, alongside our head office in Andheri West, Mumbai.

### DISTRIBUTION HUB · SOUTH

## Hyderabad, Telangana

**Warehouse: Hyderabad, Telangana**

Stock point for southern and eastern India, close to the pharmaceutical and chemical clusters of Telangana and Andhra Pradesh.

- Warehouse and distribution hub
- Industrial hubs served
- Maharashtra and Telangana

#### SUPPLY

Domestic, India  
only

#### WAREHOUSES

Bhiwandi, MH · Hyderabad, TS

## ABOUT THIS LISTING

A number of products appear in more than one category where they serve more than one industry; counts are of listed line items, not distinct molecules. Salts, solutions and mixtures can carry more than one CAS number depending on grade. Brand, origin and manufacturer are confirmed at the time of offer.

## SUPPLY ASSURANCE

# What is delivered with every order

|                  |                                                                                                                                                                                                          |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Documents        | Manufacturer's Certificate of Analysis with the consignment. Safety Data Sheet and specification issued at enquiry, before you commit. Grade, packing and lead time are quoted against your requirement. |
| Packing          | Bulk road tanker, or original packed drums, carboys, bags and IBCs as supplied by the manufacturer. Packing is confirmed on the offer, not after.                                                        |
| Delivery         | Ex-godown, ex-works or delivered to site, to every major industrial hub in India. Transport is matched to the product and its hazard classification.                                                     |
| Compliance       | Dangerous goods documentation and transport declarations handled before dispatch. Licensable products are supplied only against the required end-use documentation.                                      |
| Controlled goods | We do not supply SCOMET-listed or otherwise controlled chemicals without the required licence, and we identify at enquiry whether a product falls into that category.                                    |

**REGULATORY NOTE**

Several products in this portfolio are flammable, corrosive, toxic or otherwise hazardous; supply is to industrial and manufacturing users only, against the applicable statutory requirements. † CWC Schedule 3 chemicals, supplied only with end-use documentation. § Controlled precursor under the NDPS (Regulation of Controlled Substances) Order, supplied only against the required documentation. ‡ Listed under the Stockholm Convention on persistent organic pollutants; supply is subject to its permitted-use status.

**LOOKING FOR SOMETHING NOT LISTED?**

## Send us your requirement.

The list above is what we trade regularly. Our sourcing network reaches well beyond it. Tell us the product, the grade and the quantity and we will tell you honestly whether we can supply it, at what price and in what time.

[SEND AN ENQUIRY →](#)

## REQUEST A QUOTE

# One email is enough to start.

Include the seven details below and our first reply can confirm availability, price, pack and the real lead time, with no round of follow-up questions.

1

**Product and grade**

Name, CAS number, grade or brand you use now

2

**Quantity**

This order and expected monthly volume

3

**Packing**

Tanker, drum, carboy, bag or IBC

4

**Delivery location**

City and site address

5

**Terms**

Ex-godown, ex-works or delivered

6

**GST and licences**

GSTIN and any licence the product requires

7

**Timing**

Date you need the material on site

## WHAT HAPPENS NEXT

**We check**

stock at our Bhiwandi and Hyderabad warehouses, or the call-off lead time from the manufacturer.

**You receive**

an offer with price, pack, delivery terms and the real lead time.

**We dispatch**

with the manufacturer's Certificate of Analysis and SDS.

**We deliver**

by tanker or in original packs, to your site.
