About Hritik Chemicals

An India-based specialty chemical sourcing, export and contract manufacturing partner serving manufacturers, formulators and distributors in international markets.

Hritik Chemicals Private Limited (HCPL) is headquartered in Mumbai, India. Active in the chemical trade since 1998 and incorporated as a private limited company in 2010, HCPL serves international buyers, pharmaceutical manufacturers, chemical manufacturers, formulators and distributors seeking reliable chemical supply from India.

We coordinate contract manufacturing through qualified Indian manufacturing partners to meet agreed product specifications and customer requirements. Every consignment ships with a Certificate of Analysis (CoA), and every export ships in UN-approved packaging. In India, HCPL separately imports and distributes industrial solvents and organic chemicals through its Pan-India Distribution business.

LEGAL NAME **Hritik Chemicals Pvt. Ltd.**	ESTABLISHED **1998 · Incorporated 2010**	HEADQUARTERS **Andheri West, Mumbai**
CERTIFICATIONS **ISO 9001:2015 · ISO 14001:2015**	TEAM **Dedicated cross-functional team**	DOMESTIC NETWORK **Bhiwandi warehouse · Hyderabad office**

OUR ROLE

Sourcing & supply coordination

We identify and coordinate the right supply route against defined product, grade, volume, packaging and destination requirements.

OUR MODEL

Partner-led contract manufacturing

Production is coordinated through qualified Indian manufacturing partners against mutually agreed specifications, with HCPL as the single point of accountability.

OUR CUSTOMERS

Buyers in 29 countries

Manufacturers, formulators and distributors across the Middle East, Africa, the Americas, Europe, Southeast Asia and Australia.

MAIN EXPORT PRODUCTS

Sodium tungstate and VCI salts

Sodium tungstate is our main product. Other regular export lines include DCHN and amine VCI salts, EDTA salts, HEDP, ATMP, MEA and MMA triazine, silica gel and activated carbon.

How We Work

01
DEFINE
Product, CAS number, grade, application, quantity, packaging and destination are aligned with the buyer.

02
SOURCE
Suitable supply partners are identified and aligned against the agreed requirement.

03
COORDINATE
Partner-led production is arranged to agreed specifications where applicable.

04
DELIVER
Batch documentation, UN-approved export packing and shipment execution are coordinated.

Sourcing capabilities

PRODUCT IDENTIFICATION
Support with product names, CAS numbers, grades, specifications and application context.

SUPPLIER ALIGNMENT
Source selection based on product fit, quality documentation, capacity and commercial parameters.

BULK & PROJECT REQUIREMENTS
Enquiry handling for routine procurement, bulk volumes and selected project-specific sourcing.

TECHNICAL DOCUMENTATION
Coordination of TDS, SDS, product specifications and batch-level Certificates of Analysis.

Contract manufacturing network

QUALIFIED PARTNER MANUFACTURING FACILITIES ACROSS INDIA
HCPL coordinates contract manufacturing through a network of qualified, partner-operated manufacturing facilities across India. HCPL acts as the buyer-facing partner: translating the agreed requirement into a manufacturing brief, aligning the relevant partner, coordinating specifications and documentation, and managing the commercial and export interface.

- **Specification-led engagement:** identity, grade, application, volume and destination agreed before commercial commitment.
- **Flexible sourcing routes:** supply through established sources or coordinated partner manufacturing.
- **Single point of accountability:** commercial, technical-document, packaging and shipment coordination managed by HCPL.
- **Confirmed per enquiry:** feasibility, capacity, qualification requirements and lead times are confirmed for each requirement.

Product Portfolio

Product families across corrosion protection, water treatment, oilfield, flame retardancy, adsorption, specialty, pharmaceutical and animal-health applications.

A Core Export Lines · products HCPL already exports overseas from India

01
CORROSION INHIBITORS & VCI SALTS
Dicyclohexylamine nitrite (DCHN), dicyclohexylamine benzoate & caprylate, cyclohexylamine benzoate & carbonate.

02
WATER TREATMENT & CHELATING AGENTS
HEDP, ATMP, AA/AMPS copolymer, the EDTA range and phosphoric acid 85%.

03
FLAME RETARDANTS & FIRE PROTECTION
Triphenyl phosphate (TPP), borates and phosphates, with ATH, MDH, zinc borate, brominated and halogen-free grades available.

04
OILFIELD CHEMICALS
MEA triazine and MMA triazine H_2S scavengers, with corrosion and scale inhibitors and biocides.

05
ADSORBENTS & DESICCANTS
Silica gel, precipitated silica and activated carbon, with molecular sieves and activated alumina.

06
SPECIALTY CHEMICALS & QUATERNARY AMMONIUM
Sodium tungstate, guanidine carbonate, benzalkonium & benzethonium chloride, TEBAC, CAPB and choline chloride.

B Strategic Sourcing Capabilities · supplied through qualified partners against confirmed requirements

07
CATIONIC MONOMERS
CHPTAC, GTMAC, DADMAC / polyDADMAC and phase transfer catalysts.

08
PHARMACEUTICAL APIS & INTERMEDIATES
Dimethindene maleate; sartan and heterocyclic intermediates, peptide coupling reagents and building blocks.

09
VETERINARY & ANIMAL HEALTH
Halquinol and veterinary APIs, feed additives, vitamins, amino acids and chelated minerals.

10
INDUSTRIAL CHEMICALS & PERFORMANCE ADDITIVES
Persulfates, amines, metal salts, ammonium metatungstate and specialty inorganics.

11
AGROCHEMICALS & MICRONUTRIENTS
Water-soluble NPK, chelated micronutrients and plant growth regulators.

12
PERSONAL CARE & FINE CHEMICALS
UV filters, personal care actives, resolving agents and laboratory reagents.

C · Additional products are available against specific enquiries. Share the product name or CAS number and HCPL will confirm feasibility.

PAN-INDIA DISTRIBUTION

In India, HCPL imports and distributes industrial solvents, organic chemicals and specialty intermediates, supported by its warehouse in Bhiwandi, Maharashtra and an office in Hyderabad, Telangana. This domestic business is distinct from HCPL's international export programme.

Quality & Documentation

Quality Management System
HCPL is certified to ISO 9001:2015 for its quality management system.

Environmental Management System
HCPL is certified to ISO 14001:2015 for its environmental management system.

Quality and documentation process

01 SPECIFICATION ALIGNMENT
Product identity, grade, key parameters, application, quantity and packaging are aligned with the buyer before order confirmation.

02 SOURCE & PARTNER COORDINATION
The relevant supply source or manufacturing partner is aligned; feasibility, production route and availability are confirmed per enquiry.

03 BATCH DOCUMENTATION
A Certificate of Analysis accompanies every consignment. TDS, SDS and specifications are provided at enquiry stage.

04 PACKAGING & LABELLING
All exports ship in UN-approved packaging, with marking and labelling coordinated against product characteristics and buyer instructions.

05 EXPORT DOCUMENTATION
Commercial and shipment documents are coordinated with the buyer and logistics partners for each destination.

Compliance commitments

REGULATED ITEMS
No SCOMET or Australia Group items are supplied without the required licence. Narcotics Control Bureau (NCB)-controlled products are excluded from supply.

DANGEROUS GOODS
DG classification, packaging specification and transport requirements confirmed per product and destination.

BUYER REQUIREMENTS
Requested labels, documents and packing configurations supported, subject to confirmation.

Industries & Markets

OIL & GAS

H_2S scavengers, oilfield treatment chemicals, corrosion and scale-control chemistries.

WATER TREATMENT

Phosphonates, polymers, coagulants, flocculants, chelants and biocides.

METAL PROTECTION & PACKAGING

VCI salts and corrosion inhibitors for packaging, storage and transit protection.

PLASTICS, CABLES & CONSTRUCTION

Flame retardants, mineral fillers and fire protection chemicals.

PHARMACEUTICALS

Selected APIs, pharmaceutical intermediates, peptide reagents and building blocks.

ANIMAL HEALTH & FEED

Veterinary APIs, feed additives, vitamins and chelated minerals.

PAPER, TEXTILES & POLYMERS

Cationic monomers, quaternary ammonium chemicals and functional additives.

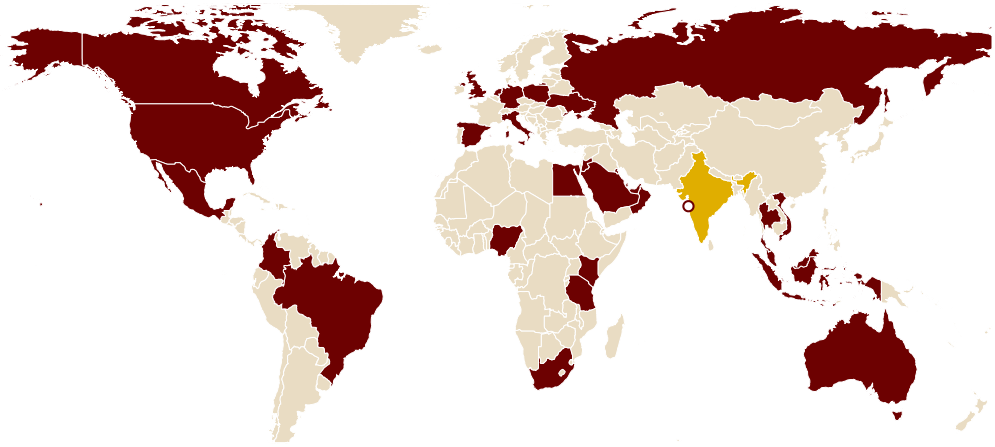

GAS DRYING & PURIFICATION

Molecular sieves, activated alumina, silica gel and activated carbon.

AGRICULTURE, COATINGS & PERSONAL CARE

Micronutrients, chelates, surfactants, UV filters and formulation ingredients.

Export destinations · 29 countries

Export destination India · Mumbai headquarters

Middle East: UAE, Saudi Arabia, Oman, Qatar, Kuwait, Jordan, Egypt · **Africa:** Kenya, South Africa, Nigeria, Tanzania · **Americas:** USA, Canada, Mexico, Brazil, Colombia · **Europe & Eurasia:** United Kingdom, Germany, Netherlands, Poland, Italy, Spain, Ukraine, Russia · **Southeast Asia:** Thailand, Vietnam, Indonesia, Malaysia · **Oceania:** Australia
